Per i Ø 5.0 e 6.4 nelle misure superiori a 80 mm il chiodo è grezzo.

For Ø 5.0 and 6.4 when longer than 80 mm, the mandrel is rough.

Fioriv su metallo
Floriv on sheet metal

Fioriv su vetroresina
Floriv on fibreglass

Fioriv su mattone forato
Floriv on hollow brick

Il rivetto FIORIV si riconosce dalla testa del chiodo in quanto presenta sotto testa quattro tacche che intagliano il corpo del rivetto al momento della posa.

You can recognize a FIORIV blind rivet looking at the head of the mandrel; under the head there are four notches that cut the blind rivet body during the fastening.
